

WCS User Group Annual Meeting Registration Form

Dear WCS user,

It is that time of year again. It is time to make plans to go to the Wright Computer Services User Group meeting, August, 12-14, 2009. This year the meeting is being hosted by The Raleigh Housing Authority in Raleigh North Carolina. We would like to welcome all WCS users interested in attending to make plans now. We hope to have an informative and interesting meeting this year. HUD has given us plenty to discuss and we hope everyone brings plenty of questions that we can discuss and find answers for. The training classes on Wednesday should be good. We are planning an overview of Excel and a class pertaining to Computer/Network Security. The cost of the class will be \$30 per person. Even if you are not planning to attend we want to hear from you – please write any questions/comments you would like the group to discuss or find answers to on page 2 and return it.

Thank You
John Earley, President WCS User Group
